

Harvard Center for Biological Imaging Lunch and Learn Lecture Series

Fall 2017

- Sept 20th**
12:00PM
Introduction to the Cell Discoverer
Scott Olenych from ZEISS will be here to introduce us to the HCBI's newest microscope. Come find out how to automate your multiwell acquisitions, perform better live imaging, and learn about brand new objective technology
- Sept 27th**
All day
Imaris Day
The team from Bitplane will be here to give us a complete tour of Imaris 9.0. Submit your data sets ahead of time to see what kind of analysis can be done. Only 25 seats available, contact Doug to register.
- Oct. 18th**
12:00PM
Deconvolution
Sven Terclavers will introduce us to the theory behind deconvolution. He will also demonstrate how fast and easy it is to now perform in ZEN via GPU.
- Oct. 27-29th**
All day
Tissue Clearing Workshop 2017
Hands-on spaces are all sold out, but the lectures are open to everyone! Check out the schedule on the HCBI website
- Nov. 8-10th**
All day
New Advances in Light Microscopy Workshop
The HCBI along with CNS bring you an exciting two days of lectures and hands-on demos of some of the newest up and coming microscopy techniques. For more info and to register, go to the HCBI website.
- Nov. 29th**
12:00PM
How Not to Break a Microscope
Are you saddened by all of the recently damaged objectives? Come find out how to make sure you're not the one breaking them!

Location: BioLabs Lecture Hall Rm 1080
16 Divinity Avenue, Cambridge, MA

This lecture series is designed to provide information on applications and techniques available in the HCBI. *You do not need to be a member of the facility to attend!*

For further information, please contact Doug Richardson (drichardson@fas.harvard.edu) or Sven Terclavers (sven.terclavers@zeiss.com).
